

Tokyo Study Tour 2014

Understanding the Technological Development in Japan

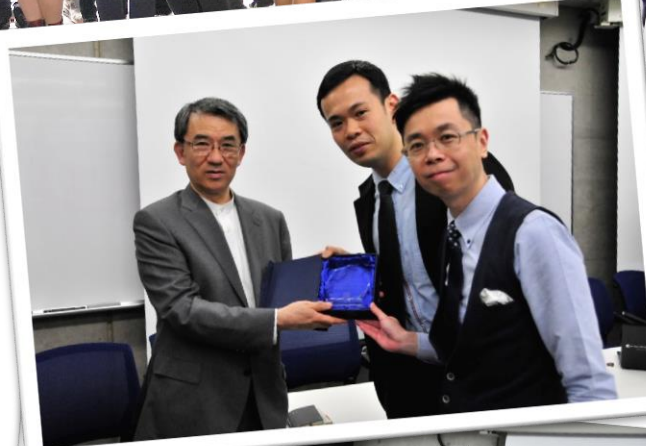

To provide students a better understanding in the technological development of our neighboring regions, and provides an opportunity for students from different programmes to share their knowledge, 30 students from Associate of Engineering (AENG), Associate of Science in Airport Operations and Aviation Logistics (AScAOAL), Associate of Science in Applied Business Statistics (AScABS), Associate of Science in Environmental Studies (AScES), Associate of Science in Information Systems Development (AScISD), and Associate of Science in Network and Systems Administration (AScNSA) participated into a study tour to visit Tokyo from 16 to 20 June 2014.

This tour was led by Dr. Timothy Kwong and Mr. Andrew Yam. It was sponsored by the College Quality Campus Life Fund of the Community College of City University, and the Division of Applied Science and Technology.
