

Visit to Cathay Pacific City

for AScAOAL Programme

On 13 April 2013, 32 students from Associate of Science in Airport Operation and Aviation Logistics (AScAOAL) visited the Cathay Pacific City (CXC). CXC is the headquarter of the Cathay Pacific Group. The visit included the tour to their flight training center, cabin simulator, check-in counter simulator, and the center for training crew members. Mr. David Shum, Assistant Training Manager of Cathay Pacific, together with Dr. Timothy Kwong and Mr. Andrew Yam, lecturers from the Division of Applied Science and Technology led the visit. This visit broadened students' horizon in back office operations and trainings of airlines. It also gave a good opportunity for students to connect what they learnt from the course DCO21601 Airline Operations and Passenger Services to a real practice.
