

Technical Visit to Cathay Pacific Cargo Terminal

3 NOVEMBER 2017

On 3 November 2017, 18 Year 1 & 2 students from Associate of Science in Airport Operation and Aviation Logistics (AScAOAL) visited the Cathay Pacific Cargo Terminal (CPCT). The visit was led by Mr. Simon Chan, Lecturer at the Division of Applied Science and Technology of CCCU.

At the beginning of the visit, members were taken to a site visit in control center to understand how the personnel oversee the CPCT operations with real-time technologies. The onsite guide tour for import, export and transshipment operation were also shown to inspire the audience with the incredible fully automated Materials Handling System of CPCT.

To conclude, we are grateful to CPCT for taking time to receive our students and let them visit control center and cargo terminal operation.
