

Laboratory Training @ HK Science Park

With the support from the BioTech Center at Hong Kong Science Park, the Division had organized a workshop on 5th, 12th and 19th Nov 2014 for all AScES year 1 students to familiar with the advanced equipment adopted in Food Safety and visit the safety facilities installed in the modern laboratory. Apart from the technical visit, students were also required to conduct some basic chemical experiments such as Titration, to enhance their practical skills in the analytical chemistry.
