# Summer Workshops 2011

*Division of Computer Studies*

In order to nurture our students and alumni with the ability to handle latest IT technologies, DCO has organized a number of workshops on different topics that are not covered in their respective curriculums (refer to the table below for details) in this summer. By participating in these workshops, students are able to get a basic understanding of the current hot topics in IT and should serve a good start for their future development.

## LIST OF WORKSHOPS

Title	Contents	Participants	Duration and Date
<b>Introduction to C# Programming</b>	This course aims to help students who have taken a course in OOP to manage one more popular programming language in a short time frame. Topics to be covered include: Introduction to Visual Studio .NET IDE, Exception Handling, GUI Concepts, Graphics and Multimedia.	30 DCO students from ENG, ES, ISD, NSA and 6 graduates of AOAL	1 day (20 June)
<b>Fundamentals of Web Programming</b>	This course aims to equip students with the ability to construct dynamic websites using popular script languages. Contents to be covered include: HTML, CSS, JavaScript, PHP with Database Support, and Session Control.	39 DCO students from CIMP, ENG, ES, ISD and NSA	2 days (June 27 – 28)
<b>Android Apps Development</b>	This course aims to introduce students the basics of mobile apps development with the use of Eclipse and Android SDK.	43 DCO students CIMP, ENG, ES, ISD and NSA	1 day (June 29)

## DURING THE WORKSHOPS

All workshops are conducted by Dr. Desmond TSOI in June at the Computer Service Centre. On average, each workshop has around 35 participants, where they are from different programme of study (CIMP, ENG, ES, ISD and NSA).

The following shows some photos taken during these workshops.

Desmond explained fundamental concepts during the workshops.

Students paid attention to the lectures.

Students explored some techniques taught in class.

Desmond helped students solving their problems.

## CERTIFICATE PRESENTATION

On 29 June, a certificate presentation was held for students to recognize their completion of training items. The presentation commenced with a warm welcome speech, given by Dr. Cyril TSE, the Acting Head of the Division. Dr. TSE highlighted the aims of offering summer workshops and the importance of learning up-to-date technologies for further development. After the speech, students were presented with the certificates.

Dr. Cyril TSE, the Acting Head of Division gave a warm welcome speech to students.

Dr. Cyril TSE and Dr. Desmond TSOI presented certificates to the participants.

A group photo taken for Desmond and all the student participants.
