

With the sponsorship from the College Quality Campus Life Fund of the Community College of City University (CCCU) and the Division of Applied Science and Technology (AST), a group of 30 students from different programmes, including AEng, AScaOAL, AScaBAnI, AScaCIMP, AScaISD and AScaNSA, visited Tokyo, Japan on June 12 to 16, 2017 to explore the application of science and technology and the Japanese culture. Through the guided tours to various organizations, such as Haneda Logistics Terminal, Tokyo Sewerage Museum Rainbow, Japan Aerospace Exploration Agency and Waseda University, students were able to see the use of technology in logistics, engineering and other areas, and to have cultural exchange with local officials and students.
