

AENG ALUMNI

EXPERIENCE SHARING SESSION

The Division of Applied Science and Technology has organized an Alumni Experience Sharing Session for AENG students on 24 April 2015. In 2014, 84% of AENG graduates surveyed have pursued further studies. Majority of them were articulated to the UGC-funded Degree programmes offered by CityU, CUHK and HKUST.

We have invited five alumni to share their experience in articulation and their university life. AENG students were very excited and interested in joining the talk. They also appreciated the chance for meeting some of the alumni for knowing more about the university life and experiences and seeking advices from the alumni.

After the sharing session, the AENG students knew more about the strategies in the admission interview and the tips for obtaining good results in undergraduate studies. As the sharing session has a limited time, so at the end, the teacher, the alumni and AENG students went outside for dinner and continue the discussion.
