

Final Year Project 2010

Final year students studying in the **Associate of Science in Creative and Interactive Media** (CIMP), **Associate of Science in Information Systems Development** (ISD) and **Associate of Science in Information Technology** (IT) were required to complete a Final Year Project (FYP) and to present their projects on **April 8, 2010**.

This year, there are a total of 16 projects teams. The students were all well prepared and with good looking and confidence. Each team was given 20 minutes to present their project aim, technical skills as well as their creativity, followed by a Q&A session to assess their management skill, problem solving skill, technical know-how and team work.

DCO students in FYP presentation

Four finalists among the 16 teams were selected for the FYP competition, and were assessed by a panel consisting of **Mr. Ivan LO** (Chair), *Senior Project Manager of Infor* and **Dr. WONG Kam Wah**, *Assistant Professor of the School of Creative Media, CityU* on April 12, 2010. **The panel members found that the competition consists of a variety of projects, and they further commented that all the projects managed to maintain a balance between creativity, business value, usability, as well as technical merit.** The winners are listed as follows:

Awards	Winners
Best Media Project	CIMP07 Natural Artificial
Best IT Project	IT01 Color Scheme
Certificate of Merit	CIMP01 Origin ISDO1 Visual Gas Network Application System

The final event of the current academic year on the Final Year Project is the **Final Year Project Award Presentation and Winner's Show 2010**, which was held on April 16. The aim of this event is to reward the good performing teams and to allow them to share their experience with their classmates and year 1 students. There were over 100 participants attending the show to share the achievement with the winners. Dr Cyril Tse, the Acting Head of DCO, started with a welcome speech to outline the aims of the Final Year Project is to integrate all the skills that they learnt from their two years of study into a project that benefits the society. He also commended on students' good presentation skill together with the efforts they had contributed to the final products. After the award presentation ceremony, each winning team demonstrated their project to the audience, as well as to share what they have learnt and how can they transfer their knowledge into the final projects.

Welcome speech by Dr Cyril Tse

Participants at the show

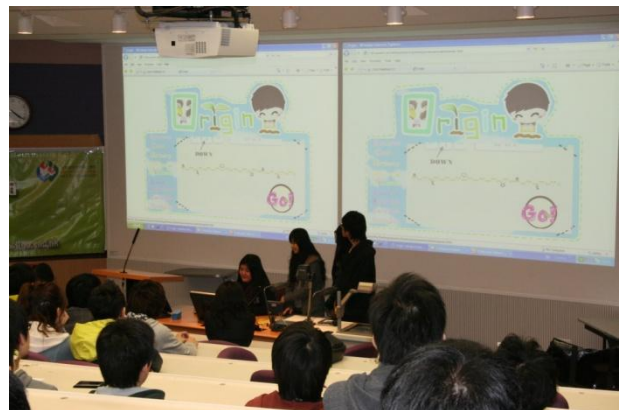

The Final Year Project allows our students to integrate what they have learnt in the different courses and this Award Presentation and Winner's Show can definitely demonstrate the ability of our students towards media and IT development. The four winning teams may not be the best among the 16 projects, but it can certainly represent the achievement of all 16 teams.

Certificate of Merit: ISD01 Visual Gas Network Application System

Certificate of Merit: CIMP01 Origin

Best Media Project: IT01 Color Scheme

Best Media Project: CIMP07 Natural Artificial
