The Division has established long part-time employment relationship with the **Jardine Aviation Services Limited (JASL)** since 2006. This year, JASL has conducted their first ever on-site interview for the part-time Passenger Services Agent (PSA) post at our Telford campus on April 13, 2012. Over 60 students applied for the post and 43 students were accepted after going through assessment test, group discussion and individual interview. The students then go through professional training before starting their work at the Hong Kong International Airport in June 2012.
