AN AWARDING CEREMONY ON 【人人識手語 溝通無障礙】 VIDEO SHOOTING COMPETITION

This competition is held by the Hong Kong Sign Language Association (香港手語協會) which established to assist the deaf and mute to communicate with people peacefully since July in 2008. In the past, they keep launching different kinds of activities such as sign language courses, one-day trips and workshops for the disables.

The association has hold a video shooting competition in period Jan - Mar 2012, The number of video clips sent to the association are huge in number which is out of the expectation of the organizers. Fortunately, our students from AScCIMP have the

competition. Their efforts have raised the public awareness on the deaf and mute in our society and project a positive image for our college.

We are glad to stand out in the competition, especially this is our first open competition. Although we have spent large amount of time in making this one-minute clip when having bustling schoolwork, we enjoy the experience and feel satisfied with our artworks. We believe that it is just the beginning of our path in media production and we will try our best to make more clips in the forthcoming future.

Three groups of AScCIMP students: 攝鏡季候風, 我們仨 and 攝鏡積雨雲 win all three prizes in the college division. Through the competition, they develop their skills in multi-media and video productions and gain valuable experiences in open
