

# Young Talents' Projects Sharing Seminar

Seven students from the **Division of Applied Science and Technology** attended a sharing seminar organized by GS1 Hong Kong and Polytechnic University on 8 February 2013. The purpose of this seminar is to share the latest news of RFID technology as well as Internet of Things development. Students who attended this seminar come from: **Associate of Engineering (ENG)**, **Associate of Science in Information Systems Development (ISD)** and **Associate of Science in Network and Systems Administration**. This tour is led by Dr. Desmond Tsoi.

The sharing seminar commenced by a welcome speech given by Dr. Ip Wai Hung, Associate Professor of Department of Industry and Systems Engineering, The Hong Kong Polytechnic University. After this, the Chief Architect and Principal Consultant, Mr. K. K. Suen from GS1 HK, presented the technology of Internet of Things.

In addition, the awardees of U-21 Best EPC/RFID Concepts shared their experience with the audience on how to come up with good ideas to resolve new world problems.

Finally, the seminar was concluded by GS1 presenting the details of U-21 RFID Awards Programs in 2013. Students from various tertiary institutes were encouraged to join this meaningful event and show their creativity in applied technology.

## Do you know?

The following three groups of AST students were awarded the Certificate of Merit in HK U-21 RFID Awards 2012.

- **Chi Hang CHAN, Yu Pang CHAN, Yuen Ying LAM, Sze Wing MAK, Pui Shan WONG, Wai Ya WONG (AScISD)**  
Topic: Indoor Navigation System for Visually Impaired People
- **Johnny Chung Yau CHAN (AScNSA)**  
Topic: Examination Management System using RFID
- **Lik Hang CHAR (AScISD)**  
Topic: Electronic Data Card using RFID
