

Technical Visit to DHL Central Asia Hub

20 OCTOBER 2017

On 20 October 2017, 17 Year 1 & 2 students from Associate of Science in Airport Operations and Aviation Logistics (AScAOAL) visited DHL Central Asia Hub at Hong Kong International Airport get an in-depth look at the facilities and operation. The hub is equipped with an up-to-date automated sorting system which improves efficiency by enhancing the handling capacity. The visit was led by Mr. Simon Chan, Lecturer at the Division of Applied Science and Technology of CCCU.

Miss. Mani So, Communication Coordinator of DHL Hong Kong, briefed the students on how the hub runs and the advantages of centralizing the parcel sorting process and delivery in Hong Kong. She also gave an introduction to how the daily flight schedule is monitored and each parcel tracked by the sophisticated systems. She followed this with a guided tour to let students have a close look at the hub's facilities and real operations.

In generally, our students reflected that they had developed a clear understanding about how air cargo facilities operate and why Hong Kong International Airport as a hub airport for air cargo industry.
