

Biology Laboratory Training for ES and SCI students

The Division of Applied Science and Technology had organized two Biology laboratory sessions @ The Open University of Hong Kong for those AScES and ASCI students who took course Biology, on **2 and 9 March 2018**.

A total of **78 students** joined these laboratory sessions. The following items were taught during the laboratory session :

- The use of microscope
- Preparation of slide of cheek cells and observation under microscope
- To test the effects of temperature on enzymatic reactions

Briefing was made by the OUHK laboratory officer and students paid attention to the safety rules and experiments' procedures. Afterwards, they started to do the experiments and gained the hands-on experiences.

PHOTO FEATURES

Briefing by OUHK laboratory officer.

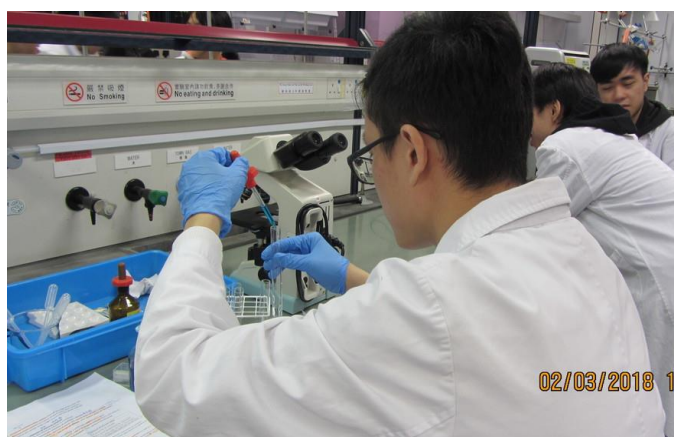

Student was preparing their own slide.

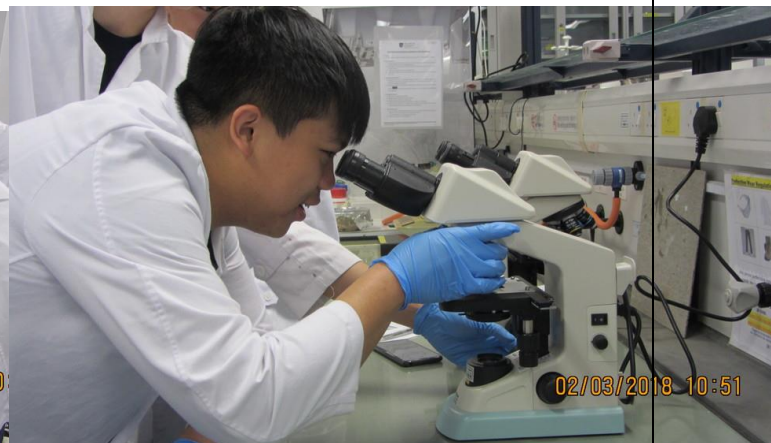

Demonstration on preparing cheek cell slide.

PHOTO FEATURES

Preparing solution for enzymatic reactions.

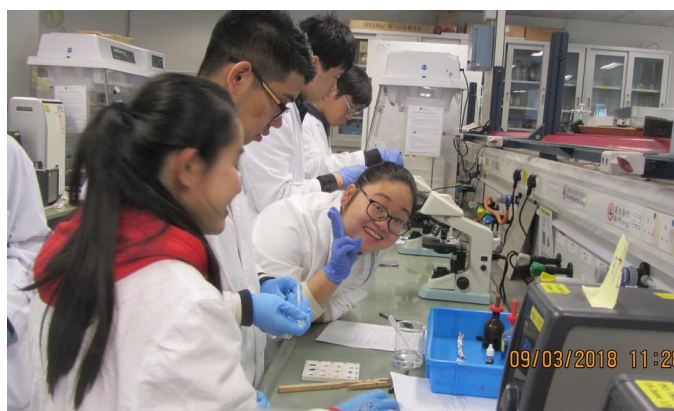

Students were observing slide under microscope.

Students seriously measuring chemical ingredients

Staining slide by using methyl blue.

Students successfully got the perfect experimental results.
